

Cover Letters to Unity Treatise:

Dear Urantia Association International Members and Friends,

On September 28, 2016 the cover letters below and the attachment entitled: “**Solving the Disunity of the Urantia Revelation**” were sent to the three headquarters of Urantia Foundation, The Urantia Book Fellowship and Urantia Association International.

Was this forwarded to you for your perusal?

It was hoped and expected that this attachment would be shared with you, so that as readers, supporters, members and friends of UF, TUBF and/or UAI you would have the historical background of the revelation clearly stated for your fuller understanding, and more importantly that you would receive a concise explanation of the **real purpose** for which ***The Urantia Book*** was given to you and your brother and sister readers.

This attachment says that *The Urantia Book* came with instructions that were not followed and this has allowed the disunity we now experience. It offers a concise solution to this problem of disunity as well.

It was hoped that after you read this attachment and discuss it among your organizations that you would be able to offer your personal advice and opinions concerning this very important issue to your leadership.

If you have not seen or heard of this attachment until now, please read it before you conference with your organization on this matter of *solving the disunity in the Urantia movement*.

Your input is vital to Urantia unity!

December 15, 2016 is the day of the *Urantia Association United States Zoom Meeting about Unity Initiative* and it is only two days away. This attachment on **Solving the Disunity of the Urantia Revelation** is long (25 pages). It will take an hour or more to read it – so sorry we did not have longer notice.

God bless you all,

warmest regards,

Nick Scalzo

PS: I am not the author of this attachment.

COVER LETTER TO THE ORIGINAL COVER LETTER: September 28, 2016

Dear Urantia Organization Leaders,

I have been asked to forward the following cover letter and the attached narrative to all the trustees and leaders of Urantia Foundation, The Urantia Book Fellowship, Urantia Association International, and other groups and persons of note before they attend the Urantia group meeting this week in Chicago. I ask your assistance to make this possible by forwarding this email to your trustees and leaders who have decision making responsibilities.

I have been privileged to read the attached narrative and believe it to be extremely valuable information in governing your particular Urantia organization and it appears to contain a most viable method for bringing true UNITY to the Urantia movement. I highly recommend that you read it carefully even before the joint Urantia organization meeting takes place and consider it as a topic for discussion.

Please distribute this email with its attachment to all the leaders within your particular organization as being one of the addressees listed below in the cover letter.

Please email or call me if you have difficulty opening the PDF file.

I would also appreciate it if you would confirm and let me know that your organization's trustees and leaders received this email.

Warmest regards,

Nicholas W. Scalzo
(860) 669-4900

PS Because of the length of this document, it may prove beneficial and timely to download an Audible text to speech file such as @voice, etc. to read it to you quickly.

ORIGINAL COVER LETTER: (Date unknown)

To:

Urantia Foundation,
The Urantia Book Fellowship,
Urantia Association International,
Independent Urantia Groups, and
Committed Readers of *The Urantia Book*,

Greetings, to all leaders of the above addressed organizations, independent groups, independent readers, and to all who would peruse and adopt the attached treatise: This treatise has as its primary intention to instill in its readers the original and true purpose for which *The Urantia Book* was given to this world and for you as an Urantia organization to attain your mandated planetary goal. Its secondary intention is the re-unification of the Urantia movement. Its third intention is to solve the disunity occurring between all of the above addressees.

And finally its purpose is to reestablish the above addressees' good standing in mortal epochal affairs on Urantia.

It behooves every trustee and leader of the three established Urantia organizations, those persons who have formed their own but separate organizations, and those independent committed readers of *The Urantia Book* to read carefully **all** that this treatise entails.

Failure to do so may affect your organization's support by those in planetary authority of that epochal revelation known by you as *The Urantia Book*.

I am with you in Service to Michael
